

Transfer from MC (Metro City) Mumbai to CB (City Beautiful) Chandigarh, from lavish infrastructures to planned architectures, from dry stone-concrete jungles to aesthetically cultivated plants and trees with beautiful landscapes adorning the city at every step, was not so easy, especially for our little one, Riva!!

After spending five years of her life with one of the leading schools in Mumbai, Maharashtra, it was a kind of jig-saw puzzle for her to collage her memories of old school and friends, with new ones!!

The British School, Chandigarh welcomed her with open arms and open mind. Its glorious entrance and the lobby displaying the achievements of students in various inter and intra school activities made us feel comfortable about the future of our daughter.

Soon, due to the co-operative and caring staff (teaching and non-teaching) Riva started to settle down in the school with many new things around. Enjoyable and safe bus rides with kind and supportive transport staff made her jump for her bus mates.

Riva started enjoying school especially when she tested the glory of success, when she exposed to various HOUSE activities and competitions like Spelling Competition, Poetry Reciting, Cooking without Fire, Rangoli making, Best Dress Up, Sums Solving and what not!! Timely encouragement and adequate guidance of qualified teachers made her win many prizes to boost her self-esteem and off course points for her HOUSE!! Guidance for Maths and Computer Olympiad has helped her sharpen her academic skills.

Splash pool, Table Tennis, Badminton and Basketball are her comfort zones during game session among others. Along with her class mates Riva enjoys her short break in a day in the well planned play area. She equally enjoys the company of her animal and bird friends in the school.

The school provided her a platform to interact and develop friendship with fellow students of various states and countries through various school activities, which

has transformed her into a more responsible and independent person, in her day to day activities.

On-going school assessments keep her academic skills up to the mark. Assessments on personal and behavioural skills helped brighten up her personality.

Recently she has been categorised into "The most Well Behaved Child" in the class. This has added to one more feathers in her cap and we, off course are the proud parents of our lovely daughter, Riva!!

All Thanks to the Principal Mrs. Mona Sethi and The British School, Chandigarh.

Thanks and Regards
From:
Mrs. Monali Deshpande
And
Mr. Amit Deshpande
(Riva's Parents)
