

Being non-resident Indian, though we wished our son to gain knowledge about Indian Culture and got educated in India for initial years, we did not want Sehaj to miss out on international education and exposure. This means that he should not only learn languages like English and French but also get correct verbal accent. TBS gave us this choice. After three years of studying in TBS, today we have all praises for TBS especially his mentor and teacher Ms. Ritu. TBS gave us the right environment, a decent culture, an international exposure by way of one to one interactions with University of Cambridge team and of course a fun way to learn which Sehaj likes the most. Thank you TBS.
