

This school has two campuses. One is with the school building and playgrounds and the other is Shreya's Home. When Shreya meets her mother, she brings with her lots of wisdom, knowledge and information.

Wisdom in the form of understanding of life and policies to live it successfully. This is something amazing. Thus, this school justifies the meaning education.

Knowledge is correlated with the books but it is much more than just fact and figures. Shreya's understanding shows that her give-and-take in the school is well planned by the teachers who are thoroughly professional.

Information Shreya has been gaining shows that the school must be having so many windows on all sides through which the cosmos could be observed repeatedly.

The question arises whether the home-campus of Shreya's school, headed by her mother is being managed effectively or not. It is being felt that professionalism in this part of the school may also be monitored by the main campus.

Regards

Geeta Sharma

Shreya's Mother
