

Note of thanks in respect of son, Zayd-4th Grade and daughter, Zarish-KG

I would like to place my appreciation for the contribution your school and specially the teachers have made to my children's learning experience. My wife and I are pleased with efforts made by the teachers in helping my son to cope-up with his academics and the effort made by them in helping him to come over his limitations. The encouragement he received in class made him to like to go to school. The helping nature of the teachers helped him to face his tasks and not shy away or fear the tasks given to him.

I can actually feel the growing confidence in my children and I contribute this to their teachers at TBS. My daughter has enjoyed her kindergarden time with you and has fond memories of teachers.

Unfortunately I am unable to continue their studies at TBS for the next academic year since I have moved to Zurich, Switzerland for employment reasons and have planned for my family to join me by this month. I am in discussion with local schools and will be getting in touch with you should any documentation be required for admissions here.

Warm regards
Parvez Siddiqui
